

Cat 9

The seven and one is calling your name
In the direction that is where you did travel
The distance is longer but keep your eyes trained
Stay on the road keep off of the gravel
Pecans, pecans, pecans, oh my
The humans around here are nutty
Soon some smiling water in the sky
Looks down like some giant buddy
Close to the city the exits will come
Stay away from the road to the business
It's the Seven and Seven that'll make your heart run
Exit right, stop, then right, don't be restless
Down the hill, then cross the rail
"Be correct" at the Colorado
Find the Square, you cannot fail
You're near the end of this day's bravado
Left on the Main then past the light
The end is within sight
