

Sung to the tune of
“With A Little Help From My Friends”

You look right here
And then I’ll look right there
And let’s hope things are just what they seem
Let’s look real hard
And we’ll find us a clue
And we’ll make sure it’s for the right team

Oh, we get by with a little help from our friends
Mmm, we can try with a little help from our friends
Yeah, we get high with a little help from our friends

What do we do when we can’t find a clue?
Do we think about calling in?
How do we feel after slamming a brew?
We’ll be ready for a tonic and gin

Oh, we get by with a little help from our friends
Mmm, we can try with a little help from our friends
Yeah, we get high with a little help from our friends

Do you believe that we’ll find the last clue?
Yes, I’m certain, but it could take some time
What will we do if we are DFL?
I can’t tell you, but it will be a crime

Oh, we get by with a little help from our friends
Mmm, we can try with a little help from our friends
Yeah, we get high with a little help from our friends
With a little help from our frieeeeeeeeeeeeeeends
