

Journey 2

When the ‘niners found gold, they gave out this *shout*,
Let this word be your guide when taking *St. Peter* out

Have patience, have patience, while on the highway,
The ride to the next clue is a long way.

As you enjoy the scenic route ride,
Many a thing will you see on the side.

Fresh from Mt. Rushmore, new Marin County residents,
A bevy of frozen, surreal dead presidents.

Another sign post you’ll pass as you continue to go,
is one named for the city of the Alamo.

You’ll also pass a sign for a town on your right,
named for *house animals that give off some light?*

You’ll exit after a sign that it’s still *2-2-FAR*,
To the ‘niners shout city that’s been your lode star

Evergreen giants o’er your way soon will tower,
Keep straight until making *Tea* after *tea flower*.

You’ll roll right down the Hill, but please stay on your toes,
And look for two signs whose words do oppose.

One sign says “neato”, the other’s near “gross”
Then off to the right your journey goes

When *acres of sunshine* follow *bob cats*,
Go where the departing wear boards for hats.

While we’re sure that you once were a whiz,
You may have slowed on the deduction biz.

The search is daunting, yes it is true,
And it might be beyond the old *student you*.

But enough of all this rhyming and talking,
After long drive, now you’ve got a *long walking*.
