

Mu Mu Shu - World-wide Known Film Industry Make-up Artist

Mu Mu Shu, darling of the film business, has once again thrown the assistant director in to a screaming frenzy. Mu Mu's daily regimen of unscheduled events and diversive tactics is known regularly to blow the budget on any commercial, film or TV shoot. How has Mu Mu become the "darling" with such a hellish reputation. Well, here's the story. Mu Mu was raised under a frighteningly over-bearing witch of an aunt named Matilda.

Matilda was such a sight at her awakening, it took two hours of precision make-up application in order to bring her to a presentable state. It was Mu Mu's responsibility to not only assist, but to humor her during this process. It's not easy looking at oneself in a half-made state and Matilda's temperment was sour already.

Over the years, Mu Mu became an expert at make-up and hair application, preparation and all-around dooing. Mu Mu's famous slogan was "Mu Mu Doo's--the best". Mu Mu broke into the business during the years of Dynasty when she made a now famous actress (we won't mention names) with a fase closely resembling a warthog with acne, look like, well, let's just say that bitch on Melrose. Since then, Mu Mu has been responsible for everyone from that little peon wench from Beverly Hills 90210 to the one and only queen of the tease, that sex bitch, Madonna. The mysticism of Mu Mu reigns in the air no better than when she softly powders a young up-and-coming starlet's milky-white skin. The room is brought to a silence. The pitter patter of her 100 percent silk brushes awakens in the heart a deep yearning for pink satin robes, fur slippers and bon bons on a chaise lounge. Mu Mu often takes these trance-like moments to escape into adventures of material and physical indulgences, disappearing for days and bringing production to a complete and disasterous halt. But, today is a very important day. Mu Mu must create a masterpiece for a multi-million dollar ad campaign. Who's the client? Non other than QUEEN, the famous cologne created by Frutanello Plum, Mu Mu's ex-lover of 10 long, lusty, decadant, volatile years. Mu Mu is more driven than ever to distraction and diversion.

Over the river a short way to go,
A street made of water go west with the flow.
Mu Mu wants to take this lover she's found,
to a place near the river shaped like a merry-go-round.
Pass those known for indigestion, celebration and enebriation,
Two lights, then turn right for recreation.

3a. About Duck Gazebo (Clue at Whit Flanks)

*Love in the afternoon, Mu Mu always embraces,
and this time she's gone to one of her favorite places.
Making love under the vines is certainly fine,
but closer to the water she'll never decline.
She feels romantic mating amongst the swans and the ducks,
hell, for Mu Mu, everyplace else just generally sucks.
But what of Mu Mu, is she a safe-sex lover,

4. To Flipnotics (Team Copy)

*Once you've found Mu Mu's hidden stash,
you must keep following her trail of balderdash.
Head straight along the path you've already followed,
Go left whenever the opportunity is allowed.
Retracing the main waterway you were once on,
Mu Mu's thinking she'd look absolutely smashing in chiffon.
She's looking for a place to satisfy her vice,
With clothing below at a reasonable price.*

4a. About Flipnotics (Clue at Gazebo)

*Well, it looks like catching up with her you're sure to fail,
but she's left you a message to keep you on her tail.
She's a little kinky and you know she likes it,
that you're following her so closely, but she'd never admit.
So, walk in, have a seat, that's what she'd like you to do,
then order a cup at the counter and ask "Where is Mu Mu?"*

5. To Electric Ladyland (Team Copy)

*Now that Mu Mu's satisfied her vice,
she's wants to visit a shopper's paradise.
She snubs an enticement by lover Lamar,
and keeps heading east for a street to hitch a horsecar.
At a petrol badge, a right turn you'll take,
Look for Mu Mu's EGO, it'll give you a heartbreak.
Mu Mu swings by Old Nellie, a well-known party hag,
And thinks tackily to herself, "God, she could use a brown bag".
Then moments later she saw a colorful mirage,
of Voltaic Dames possessing colossal earthly Acreage.*

5a. About Electric Ladyland (at Flipnetics)

*Mu Mu was delighted at finding a store
of such terrific locale and "God, costumes galore."
She immediately raced in, and thought "how impolite",
"With all this racing about, I must look simply a fright".
But I think you should know with no further ado,
what I'm about to say is very important for you.
In this place, absolutely do not make a mess,
or dig around with much excess.
They do not care for Mu Mu being here,
and if you make a scuttle, they'll kick you out on your rear.
Mu Mu's first concern is always her looks,
and everywhere she goes, she keeps cosmetics in nooks.
Mu Mu noticed Right off and was all a flutter,
Leather jackets and feather boas made her gently shutter.
And just beyond that was what she was looking for,
a place to pamper, for any visitor.*

6. *To Gonzales (Team Copy)*

*Now that Mu Mu has primped and bought a load,
she's ready to escape out on the road.
So in order to hastily catch up with her,
An east trip on the River's Side must occur.
Head straight for a while, the Interstate's just a start,
When Mu Mu takes off, she's a true work of art.
She's showing the worst of Austin, don't you know,
but at Pleasant Valley, it's just a little further to go.
She's always been fond of a famous mime named Ben,
and she's especially appreciative of his extremely tight End.
But unfortunately, just as she gets right on it,
A left she must take to 183 South, darnit.
She was a little relieved to get rid of that tart,
For he had held the key to unlock her hart.
Now, she's dashing away to a town called Luling,
where she's planning to find a set underling.
Mu Mu looked around with exasperated chagrin,
and Left following 183 at the Rock-a-bye Inn.
She began to feel a little reminiscent,
and decided to return to where her childhood she'd spent.
If at Ben White/183 you set your odometer,
around forty-four you'll see on your left a Watertower.
Entering town, it'll read "Come and Take It",
on the other side a hint of Mu Mu's big secret.*

6a. About Gonzales (clue at Electric Ladyland)

*Well, Mu Mu you know, hasn't always been femme,
she used to be, well, quite masculine.
She played with a ball, and wore shoulder pads,
and was more than glad to be toppled by frisky young lads.
It is just past the tower, you'll see the place,
where Mu Mu, during practice, had her 1st embrace.
The Apache coach had sent her for an errand,
in a love shack, she met him, a member of the band.
This path is certainly sordid, Mu Mu's past we must grope,
But I've given you something in an envelope.
Now figure it out, during the next two,
You won't expect it to mean much to you.
But before you leave here, you'd better open it,
and a victim must be recruited, to witness and sign it.*

7. To Goliad

*Mu Mu's flashback was a little disturbing,
so let's get on with it, there's more after Luling.
Stay with the number you've been traveling on,
and head for Cuero, passing through Hochheim.
All these places, Mu Mu's now famous in,
during that time she was a transvestite named Corinne.
It was a small town, the next one past Cuero,
where Mu Mu began to develop and grow.
At the Inn of Goliad she did find a home,
with a lover of her past, his name was Jerome.
In order to find the beginning of her destiny,
take a right on 59, and look for ivory.
It's not too far, take a left there,
and ahead you'll find the Courthouse Square.*

7a. About Goliad (Clue at Gonzales)

*Mu Mu got her start here you should know,
It's bouffant deluxe, and fingernails that glow.
The building is something out of a Grease play,
and Mu Mu's favorite color, all the way.
She used to sit outside for a cigarette break,
and the Courthouse lawn she would intake.
But don't go in and mention her name,
for her reputation, in this town, wreaks of shame.
Her cigarette butts are all that's left to tell,
of her brief time here, that she simply refers to as "Shear Hell".*

8. To Aransas Pass (Team Copy)

*Back to 183 you'll want to go,
Mu Mu wants you to catch her so she'll go nice & slow.
"You must catch her", Frutanella does plee,
This game Mu Mu plays isn't very funny.
She's taken quite a precarious trail,
so follow it or you'll surely fail.
Straight ahead to Refugio,
Junction 774, odometer to zero.
You'll find it at the edge of town,
a left you'll take, you've got it down.
1.5 miles, there's a sea of light,
two thousand six hundred and seventy-eight . . . right.
Figure this one out, just for kicks
Somewhere around eleven, $2678 - 2542 = 136$.
Steam right on through Bayside,
now you're getting closer to the tide.
At 21 you'll hit Junction 188,
a port of stones you'll appreciate.
28.5 do not decline,
to take a right on 1069.
Under a highway, then to thirty-five,
Take a left for a dive.
From this point we've done our best,
the message from Goliad will instruct you on your quest.*

8a. About Port Aransas (Clue at Goliad)

Well, Mu Mu has finally settled down,
in a small, but quaint, fisherman town.
To get there take a left at 35,
Around 34.7, veer to the right side.
Mu Mu's savior was a ferry from Heaven,
and a cute little sailor by the name of Kevin.
This ferry will be glad to lead you to her,
and on the other side, you'll meet Alister.
Alister will be Righting about Mu Mu's adventures,
it's a long story, about seven chapters.
Those seven chapters will be labeled A to G.
There will be nothing else Left, except the present, to see.
So, head to meet her she's waiting to tell,
but she wants you to figure out this puzzle as well.
